

With a new school year upon us, now is a good time to consider that our children's safety is everyone's responsibility. Hanover township government & schools have made countless safety improvements to areas where pedestrians and automobiles share the road. But without everyone's commitment to drive, walk and bike safe, the potential for tragedy will always exist.

To help ensure our students stay safe, please remind them to remain actively aware of their surroundings, use crosswalks, and obey traffic control signals when walking or biking.

Drivers, please keep these important tips in mind when driving through our neighborhoods, schools and parks:

- ✓ **Stay aware** – pedestrians can be anywhere & can be hard to see
- ✓ **Be prepared** to stop as you approach crosswalks
- ✓ **Never** pass a school bus in either direction while its red lights are flashing
- ✓ **Pay extra attention** while near schools & parks
- ✓ **Obey** the speed limit
- ✓ **Don't** text & drive

The Hanover Township School and Park Traffic Safety Advisory Committee encourages everyone to drive safely. The care you take while behind the wheel will help insure everyone enjoys a happy and healthy school year!
